## Impact of Counseling of faculty members based on TLP Feedback

Academic Year: 2019-20- I semester

### Feedback Process on TLP:

- Each faculty member is evaluated (on all the courses the faculty member is taking in the semester) by the students on the teaching-learning aspects listed under Appendix – A. Feedback is taken two times during the semester, namely Term – 1 and Term – 2.
- Faculty members who get less than 70% of feedback in Term-1 are counseled by the Head of the department to enable them to improve/modify their teaching methodologies for better understanding of the course by the students which facilitates improving the feedback on them in Term-2.
- It is observed that the feedback on faculty members during Term – 2 who were counseled during Term – 1, got improved as detailed below.

Sno	Name of the Subject	Name of the Faculty	Feedback % Term -1	Feedback % Term -2

## Impact of Remedial Classes

For the students who got less than 50% marks in mid-term examination -1, remedial classes were conducted in 3 courses, namely, Analog Communications, Electronic Circuit Analysis and Digital System Design. Some students attended these classes voluntarily despite scoring more than 50% marks in mid-1 exam. The impact of remedial classes was analyzed by comparing their marks in mid-1 and mid-2. Details of analysis are provided below:

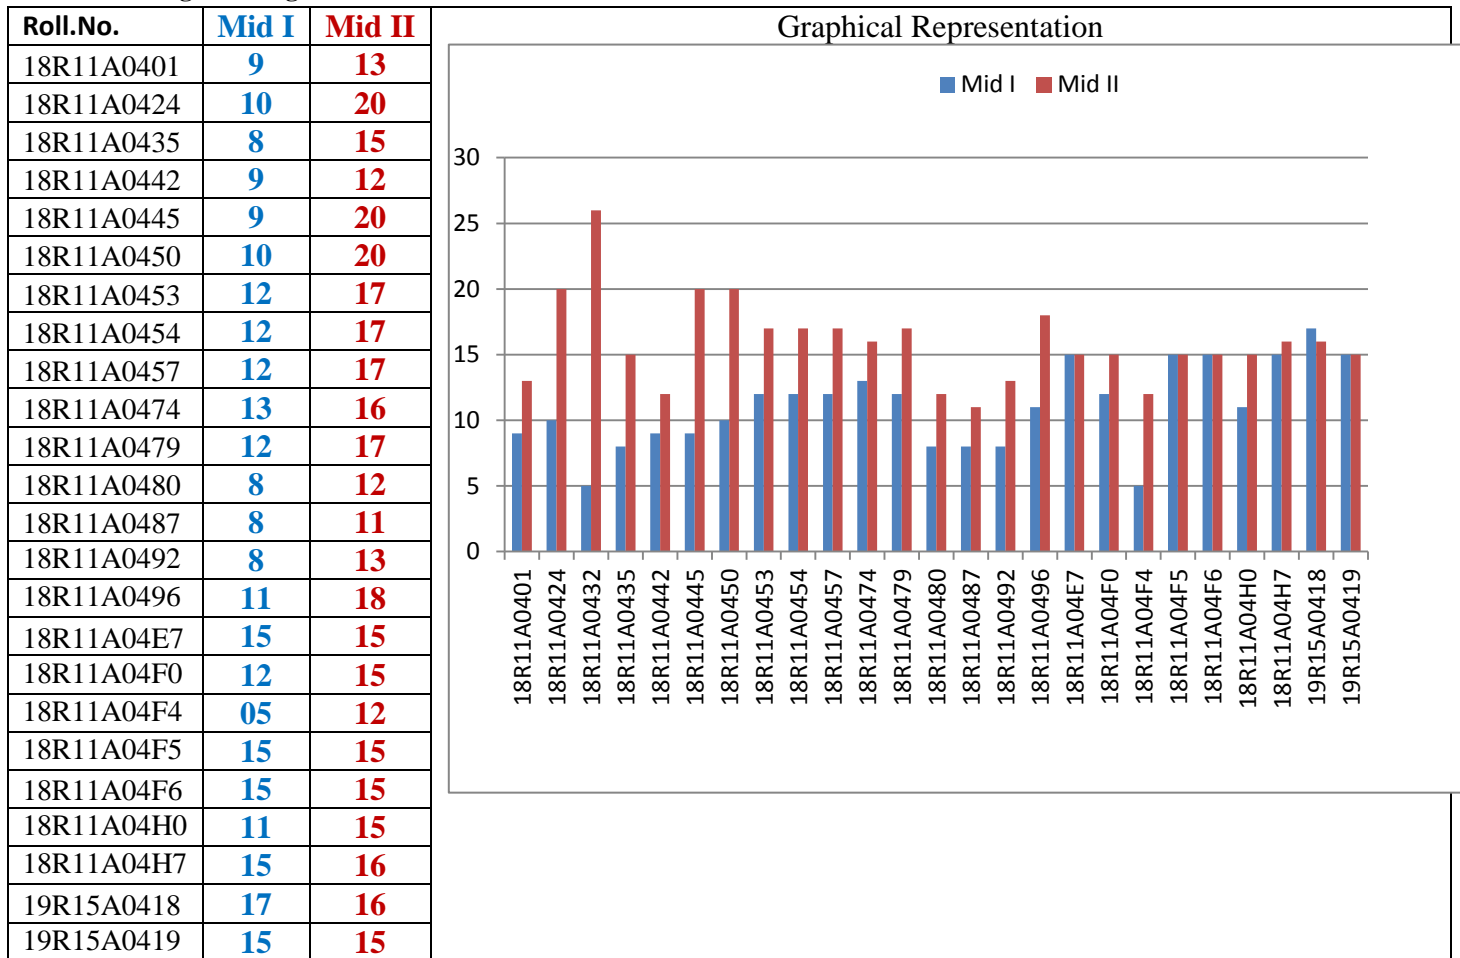

**Remedial Classes conducted for the DD course to 2<sup>nd</sup> year students on 30<sup>th</sup> September, 1<sup>st</sup> October, 1<sup>st</sup> November and 4<sup>th</sup> November 2019**

Mid 1 examinations were conducted from 17th to 19th August 2019 for 2nd year students. As it was discussed in course coordinator's meeting, Remedial classes for this Digital Design Course were planned for the Academically weak students based on the Mid1 marks. The list was **finalized** based on the marks in the subjective less than 5. The approval was taken from HoD for conducting these classes (Annexure 1) and accordingly, the classes were conducted after informing to all these students to attend these classes with our fail. Students who got less than five marks in subjective from ECE, CSE and EEE were attended to the classes. Remedial classes were held after 3.30PM.

The list of students, who attended the classes, is attached as Annexure 2.

### Effect of Student Mentoring by Faculty

**Methodology:** Each faculty member shall be allotted 17 to 20 students. A separate period is allocated in the weekly time-table for mentoring of the students by the faculty. The faculty mentor closely monitors the attendance and other academic aspects of the student mentees and counsel the students accordingly to improve their academic performance. To analyze the impact of mentoring, the Slot attendance (slot 3 and slot 7) and the mid-term examination marks (mid 1 and mid 2) are compared as given below. The numbers with Green colour indicate that there is an improvement and the Red colour indicate there is no improvement. For FIVE cases analysis is represented below.
